Mediblink Nasal Aspirator 2v1 M400

Mediblink nasal aspirator enables the quick, efficient, simple and safe removal of mucus from the nose in babies and children. It is unique because it can be used by mouth or a vacuum device. Two soft silicone nasal adapters make it gentle and completely safe to use. Nasal adapters are of different sizes, which increases flexibility and improves product performance. The aspirator enables simple cleaning as it can be disassembled in 8 parts. Its transparent design allows product operation monitoring during use, and its ergonomic design allows for easy handling. Does not contain BPA.

- *The only aspirator which can be used **by mouth or with a vacuum device***
- *Thanks to the soft silicone nasal attachments, it's completely safe to be used on baby's – **it is recommended by Pediatricians***
- *Because of the unique shape, the **mucus never goes into the tube/mouth/vacuum device***

- *Easy to maintain: it can be disassembled in 8 pcs, the main unit is bigger and easily accessible, all 4 attachments can be **cleaned in boiling water***
- *Curved shape enables **easy access to baby nose***

Mediblink Electronic Nasal Aspirator M420

- *Easy and efficient cleaning of the nose with the **soft silicone nasal attachments***
- *Nose is cleaned in a matter of **few seconds***
- *Unique – it plays **12 different melodies**, which distract the baby while using the product*
- *It has **4 nasal attachments**, and **2 different sizes***

The aspirator offers both a handy design and is safe and easy to use. Two different sizes of soft silicone nasal tips are enclosed, which enable safe product use. It offers a twelve chord melody music option, to create a pleasant user experience for your baby/child when using the aspirator. The nasal tips and a collection cup are removable and can simply be cleaned under running water. Even though the device is powerful, the aspiration is quiet (70db). Two 1.5V AA batteries are enclosed. The warranty period is two years. Please note: Never clean the aspirator with water or any other liquid. It is highly recommended that the device is cleaned with a soft damp cloth after use.

Mediblink Non-Contact Thermometer M320

- *Measurement of **body temperature on forehead, ambient, food, liquid and object temperature***
- ***Night mode: no beep sound***
- ***Large LCD, with innovative backlight***
- ***Result in 1 second***

Printing on the side of the Thermometer works as a quick guide, on which distance we have to do the measurement = better user experience.

The thermometer offers both a handy design and is safe and easy to use. It takes a non-contact measurement in just one second at a distance between of 0.5 and 3 cm from the forehead/object. It offers a precise measurement of the body temperature on the forehead (34°C ~ 43°C), and the object/surface/liquid/ambient temperature (0°C ~ 100°C). In case of a high body temperature (above 38°C), the thermometer emits an acoustic, visual (red LED light) warning and a frowning Emoji will be presented on the LCD screen. If the temperature is below 38°C, a smiling Emoji will be presented on the LCD screen. The thermometer has a silent/night mode; a large LCD screen, storage of the last 30 measurements, empty battery indicator, automatic shutdown function and ability to switch between °C and °F. Two 1.5V AAA batteries are enclosed. The warranty period is two years.

Mediblink Ear Thermometer M300

- *It measures the **body** temperature in the ear*
- *Washable tip – no need for ear attachments*
- *Large LCD, with **innovative** backlight*
- *Result in **1 second***

The thermometer offers both a handy design and is safe and easy to use. It takes a personal temperature in the ear in just one second. In case of a high body temperature (above 38°C), the thermometer gives you an acoustic warning and a frowning Emoji will be presented on the LCD screen. If the temperature is below 38°C, a smiling Emoji will be presented on the LCD screen. A water resistant thermometer tip offers easy maintenance. This is an economic, probe cover free thermometer. It has a large LCD screen, a storage of the last ten measurements, an empty battery indicator, an automatic shutdown function and the ability to switch between °C and °F. A battery is enclosed. The warranty period is two years.

Mediblink Cold-Hot Packs Beads M120/M121/M122/M123/M124/M125

- *Perfect relief from aches and pain*
- *Holds the temperature for 20 min*
- *Even if frozen, very flexible*
- *When heated in a microwave, it is a perfect solution to relax stiff muscles and encourage blood flow and healing*
- *Can be used directly on a skin*
- *Packed in a transparent packaging, with a hole for customer to touch and feel the product*
- *Comes in sizes: 10x10cm / 12x29cm / 20x30cm / 17x17cm for breasts / Frog and Ladybird for*

Mediblink Pregnancy Test Strips M150

- *2 test strips included*
- ***The most economic tests:*** for lower price you get the same result
- ***Over 99% accurate***
- *Fast result*
