

CENGİZ KOMPOZİT LED STREET LIGHTING

Prepared in 2018

A nighttime photograph of a multi-lane road illuminated by modern, tall streetlights. The lights are arranged in a line, receding into the distance. The sky is dark blue. In the foreground, the road surface is visible with white lane markings. On the left, a few cars are visible, their headlights and taillights creating light trails. A row of young trees stands along the side of the road. The overall scene is a demonstration of the company's LED lighting technology.

About Us

Cengiz Teknik Kompozit Inc. is city furniture manufacturer. It is established in 2014 and entered new technology product, Light-Emitting Diode (LED). Within its R&D studies we have improved and innovated the LED as areas of using LED increase sharply in every year.

We provide cheaper lighting solution in rising energy price on the world.

LED LUMINAIRE

We provide package solution to our clients. According to environmental conditions and place of use, our engineer teams prepare a package to client with Led Luminaire, Pole, and other relevant equipment.

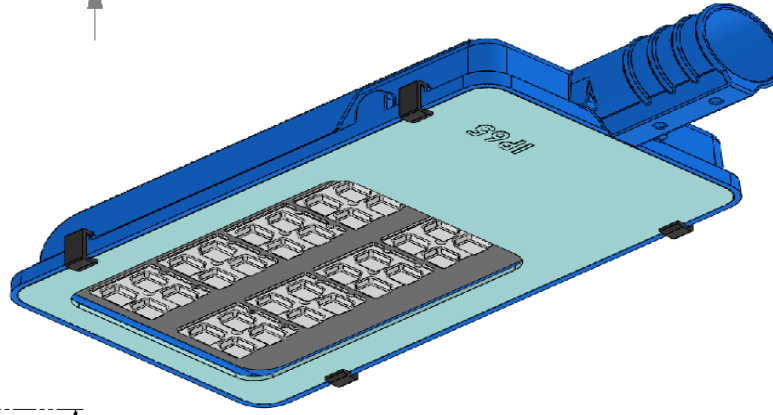

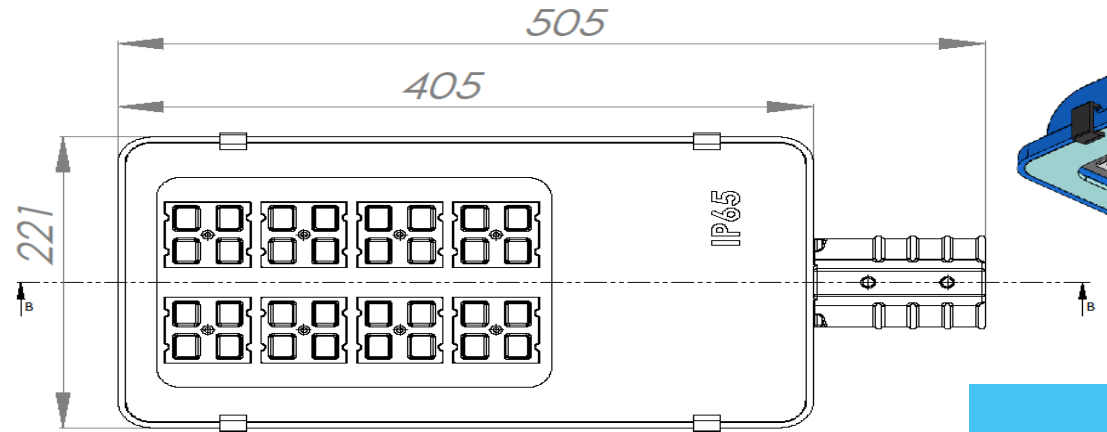

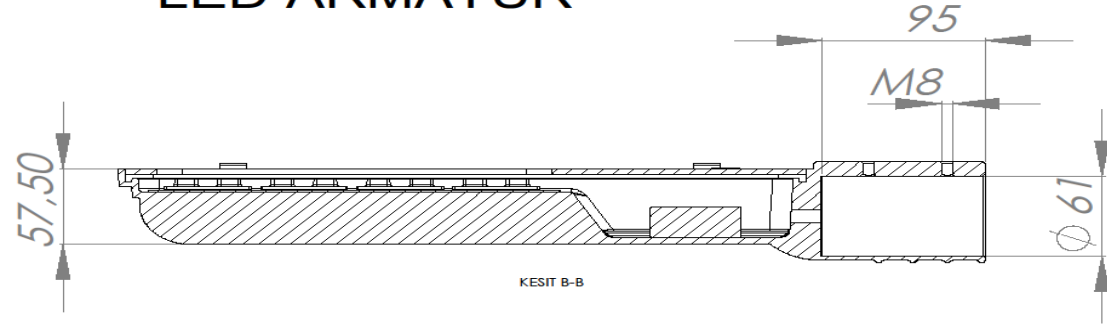

Moreover, We also provide green and sustainable energy lighting solution. Solar Led Street Light

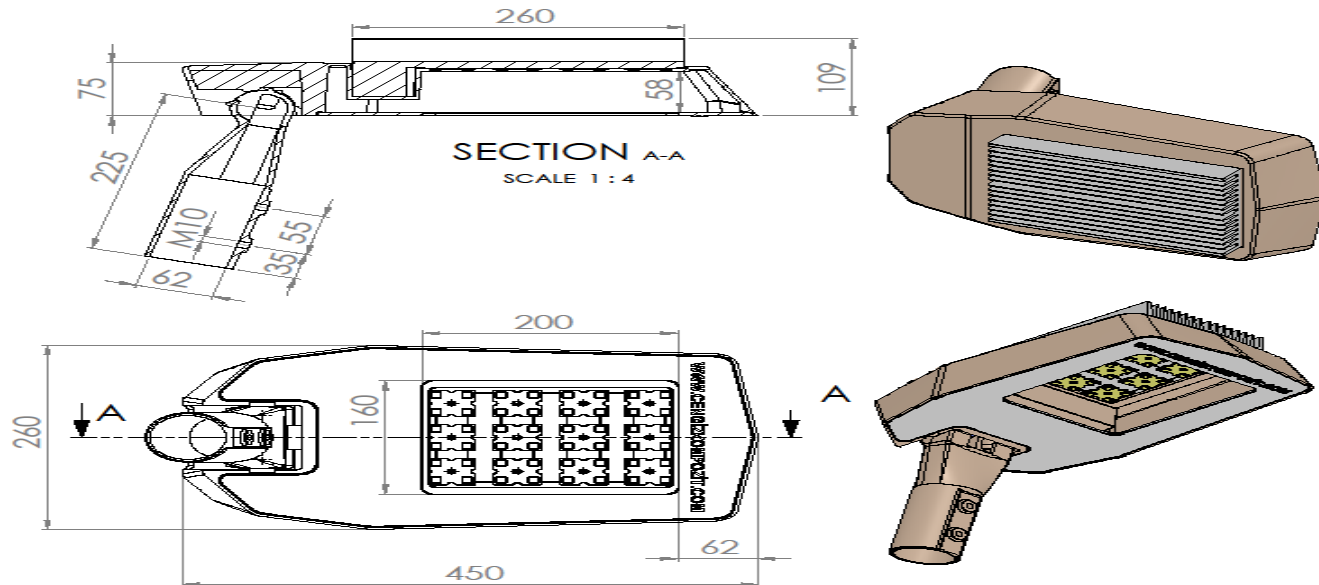

Our Products

LED ARMATÜR

Technical Drawings

It can work in cold environmental conditions. It does not only consume less energy, but it is also lighter that generate gain on transportation.

Innovation, Research & Development

This technology is still new and provide great opportunities for innovation. We have developed a new led lighting which has camera for security purpose and wifi for service purpose.

**Prices; Please contact with us
export@cengizkompozit.com**
