# Presentation

“ Viki Treid 2008” EOOD is a newly created company registered in Varna, Bulgaria. We are a manufacturer of cold pressed oils made from seed and nuts. We have prepared a brief presentation of our product catalogue in connection with the company`s strategy to establish long-term partnerships . Our oils are natural ones and they are without “Vitamin E” supplement. This is an assortment, which we work with in Bulgaria. The products, we can offer, include all kind of pressed oil seed and nuts such as apricot, walnut, almond, hazelnut, grape seed, water-melon seeds, mustard, rape( Brassica napus) , rapeseed ,etc.

Our partners could be :

- Distributors of food products
- Manufacturers of cosmetics such as shampoos, soap, creams that consist of our base oils.
- Manufacturers of canned fish that have a product range of vegetable oil.
- Manufacturers of paints, varnishes and chemicals.
- Distributors of food supplements.
- Distributors of natural products.

# Cold-pressed sunflower oil edible gold – unrefined sunflower oil

0.250ml-30.60€,

The unrefined cold-pressed sunflower oil is obtained by the pressing of raw Bulgarian seeds together with their shells. This oil is extremely rich in vitamin E, omega-6 fatty acids and omega-9 essential fatty acid. It does not contain any toxic residual agents (acids) from chemical processing because such agents are not used in the production process.

# Flaxseed oil

0.250ml.-2.83€

Flaxseed oil is vegetable oil made by cold-pressing of dried raw flax seeds. **Flaxseed oil** relieves both premenstrual syndrome and menopause in women, improves the condition of the skin and hair, strengthens the nervous system and the work of the kidneys. It helps to increase the visual acuity and asthma. It can be substituted instead of the usual salad sauce and oils. It is also delicious and it's often used for pastries and protein shakes.

## **Diseases, that is not recommended **Flaxseed oil****

- Impaired clotting;
- Allergic reactions;
- Hormonal disorders. Not recommended for women in menopause
- Gallstones disease .

# Sesame oil

0.250ml.-3.71€

Sesame oil is vegetable oil extracted from sesame seeds. There have been cases where the product lowers blood pressure in hypertensive patients and hypertensive patients with diabetes. At the same time, the level of antioxidants in the blood is growing, making the body more resistant .

With a wide range of important vitamins and minerals contained in the sesame seeds, it is not surprising that it is associated with the reducing of the risk of cancer. Beyond the role of these more common minerals, including the powerful anti-carcinogenic effects of magnesium, the sesame also contains phytate, an unusual cancer-preventing compound that acts as an antioxidant and reduces the impact and effects of free radicals, hazardous by products.The sesame oil has very strong therapeutic and healing properties.

Antioxidant – The sesame oil contains many antioxidants. It does not spoil quickly because of these antioxidant nutrients.

Antidiabetic - relieves diabetic.

Helps wounds recovery.

Detoxication – one of the few massage oils that removes the toxins of the body.

Warming – creates a sensation of warming in a massage.

Sesame oil has a laxative effect

Improves the condition of the hair and nails.

# Hemp seed oil

0.100ml.-5.28€

0.250ml.-8.80€

**Hemp seed** is rich in omega 3 and omega 6. It is green in color and has a pleasant aroma. It is obtained from industrial hemp which does not contain THC. The THS substance is located in the leaves, not in the seed from which the oil is extracted. The main proteins in the seeds make it easy to absorb from the body. It should always be consumed raw. The oil is not recommended during pregnancy.

**Hemp seed oil** prevents from heart diseases, increases endurance, fastens wounds healing, reduces inflammation, improves immunity.

# Black cumin oil

0.100ml.-8.27€

0.250ml.-15.31€

Black cumin oil is also known as the “black gold” of pharaohs. There is a specific spicy flavor due to the natural oil content. Black cumin oil is natural and healthy supplement that contributes to health. Black cumin originates from Asia and has nothing to do with our familiar cumin. For the positive influence of the human body you can find a lot of information on the Internet.

# Chia seed oil

0.100ml.-3.66€

0.250ml.-14.39€

Chia seeds or Spanish sage are quite popular in the millennium, which is not surprising, as it has a unique set of valuable substances and minerals that makes them truly irreplaceable for the health of the body. Chia seed oil is a rich source of omega 3 and omega 6. It has a soft and delicate flavor. When it comes to fibers that makes it great for the digestive system. The chia seeds contains 60% omega 3.

## White Thorn oil

0.250ml.-10.10€

- Cold-pressed white thorn oil is extracted from thistle seeds /*Silybum marianum*/. It is rich in silymarin, the only substance believed to be able to revitalize liver cells and regenerate gallbladder cells. The resulting cold-pressed white thorn oil has a unique biochemical composition as well as a wide range of healing properties and is a valuable dietary product that has long been used in traditional medicine around the world and, in addition, is a highly effective cosmetic product
