

I represent Global Sourcing at ABB Motors & Generators. As Eastern Europe Emerging Market Sourcing Specialist I am responsible for evaluation and implementation of Suppliers into ABB's RMMG Supply Chain.

I am contacting you in regards to have your advice about Suppliers from your Country which could be interested to execute our project - **Outsourcing Industrial Electrical Motors and Components production**. We are looking for final motor producer that will be capable to produce also the active parts: Stators & Rotors and other Components (motor sizes from 52 up to 132).

Could you recommend also appropriate Union, Society or Association in your Country to which I can address my inquiry?

Thank you in advance for your cooperation!

Best regards,
Antoaneta Parlakova
