

Dear colleagues,

I am writing to you regarding a request for assistance in finding a trading partner in Hungary. We are one of the largest manufacturers of handbags and accessories in Bulgaria. We are a member of the Bulgarian Textile and Leather Association - BATOK. Our company name is Spring Ltd with UIC 831194080 and we are located in Dimitrovgrad.

We urgently need a partner to buy used tarpaulin trucks - trucks, in connection with one of our activities, namely the manufacture of finished tarpaulin products. We have the opportunity to buy large quantities as long as we find the right partner.

As there are service providers in Hungary, namely transport companies, we believe that the opportunity to find a partner is great. Another reason for our confidence is the fact that demand for this type of products is low, which is why we believe that the interest of the transport companies would be great. Usually, old tarpaulins are discarded with no added value and even represent a small cost of storage and subsequent disposal at designated locations. I would love your feedback.

Prolet Ltd.
